展会亮点

SHOW HIGHLIGHTS

01

*inter airport China*首次举办“明星”“双论坛”与会嘉宾和听众通过一系列的演讲直接建立关系纽带,受到了高度的关注和极大的欢迎。

At the *inter airport China* 2016, the “star” “two forums”, featured with a direct connection between speakers and the audience, were held together for the first time and came out quite eye-catching and popular.

展会首日,“中国机场‘十三五’规划发展论坛”启幕,论坛以“政策解读与趋势发展”、“机场规划建设与机场新科技”和“绿色机场与机场城市”为主题,国内近56家机场、航空公司、机场建设及科研设计机构的120余名专家、学者与会,积极融入国家“一带一路战略”共同绘就“十三五”期间国内机场发展新局面。

On the first day of the trade show, the “13th Five-Year Plan for Chinese Civil Airports” forum kicked off themed “The Policy and New Trend for Civil Aviation Industry”, “The New Technology for Airport Planning and Construction”, and “The New Trends for Green Airport”. More than 120 experts and scholars from about 56 airports, airlines, airport construction organisations and research and design institutes in China attended the forum, actively contributing to “The Belt and Road Initiative” and jointly blueprinting the development of China's civil airports during “The 13th Five-Year Plan”.

馆内研讨会区域，“2016机场建设发展论坛”与“新技术交流会”

更是热闹非凡。演讲嘉宾来自中国民航

科学技术研究院规划室、新疆机场集团规划发

展部、广西机场管理集团战略发展部、通航空港建设投资管理有限公司和中工国际工程股份有限公司园区事业部等，他们为现场听众详细分析“我国民用运输机场发展现状及趋势”，解读“通航机场的困局与出路”。

In the seminar hall, “2016 Airport Construction & Development Forum” and “New Technology Exchange Meeting” were both particularly bustling. Speakers were from organisations including the Planning Office of China Academy of Civil Aviation Science and Technology, the Planning and Development Department of Xinjiang Airport Group, the Strategic Development Department of Guangxi Airport Group, General Airport Construction & Investment Management Co., Ltd. and the Industrial Park Division of China CAMC Engineering Co., Ltd. Before the audience, they gave detailed analysis on “the present and the future situation of China’s civil airports” and explanation on “the problems and solutions of general airports”.

领略到更完美的室外展区，更全面的涵盖机场户外设备

Better outdoor exhibition space and more comprehensive inclusion of outdoor airport facilities.

02

室外展馆则是特种车辆的天下，机场清扫车、机场摆渡车、应急救援车、电动观光车、电动牵引车等特种车辆可全年服务于机场跑道、滑行道、停机坪等路面，这些设备已在全国各大机场投入使用。对于新建及改、扩建机场的运营者可直观且全面的欣赏到业内顶尖产品，领略到未来机场“智能”出行新体验。

Special purpose vehicles were exhibited outdoors, including airport sweeping vehicles, airport shuttle buses, recovery vehicles, and electric sightseeing vehicles and tractors which were suitable for the use of runways, taxiways and aprons all year round and had been used in large airports across the country. The exhibition directly exposed operators of new or reconstructed or expanded airports to cutting-edge products and helped them learn about the future of “smart” airport transport.
